No two rooms are alike
Why should your doors be?

Endless design possibilities
One perfect style

MODEL BY0120 / 833170

Slimline Framed with Clear Mirror Insert

Closet Doors

Sometimes, what's within your closet needs a bit of covering up. Save space in small rooms by adding a sliding closet door to your enclosures, utilize a bifold closet door to stack up on style or try a pivot closet door to replace any memories of having a basic closet.

Barn Door Hardware

Adding the finishing touches to any renovation or decorating project can complete a homes look. Hardware plays an important role in enhancing the style of a space. With a multitude of choices available, factors to consider can include how well a particular style or colour complements the overall design theme and how the hardware will function within the space relative to other important decor items. Hardware is like adding jewelry to a room, the personality that makes the room reflect the home owners style and interests.

BARN DOOR HARDWARE & ACCESSORIES

Renin's **Single Track Bypass** double barn door hardware kit eliminates the bulk of a traditional bypassing system by removing one of the tracks which allows your doors to be closer to the wall. This innovative double bypass barn door hardware system provides a more contemporary appearance with less hardware visible on the wall.

When wall space is an issue, the **Spectrum Bypass Barn Door Bracket Kit** will allow two barn doors to independently travel across two tracks and not require extra clearance. The double barn door hardware kit allows for one door to slide over another making it perfect for closets, pantries, or possibly even multiple openings on the same wall.
